MESSAGE

स्वास्थ्य एवं परिवार कल्याण मंत्री
भारत सरकार
Minister of Health & Family Welfare
Government of India

I extend my congratulations and best wishes to the Indian Institute of Public Health on the occasion of its permanent campus being inaugurated by the Honourable Chief Minister of Gujarat. Even while functioning from a temporary campus, the Institute has made several significant contributions to public health education and practice. Endowed with its own campus and empowered with the status of State University, IIPH-G will now be able to enhance its efforts to strengthen health systems and advance public health in India.

The Government of India envisaged the emergence of the Public Health Foundation of India (PHFI) as an important vehicle for building public health capacity in the country. The Indian Institutes of Public Health, established by PHFI in different regions of the country, are providing valuable support to major national health programmes. The coming of age of IIPH-Gandhinagar is a major milestone in the journey of PHFI. I look forward to PHFI and the IIPHS playing an even greater role in strengthening India's public health.

(Jagat Prakash Nadda)
