## Message from Director's Desk

---

It gives me great pleasure to present the Annual Report of our University for the academic year 2022-2023.

The Indian Institute of Public Health Gandhinagar (IIPHG) was established in 2007 as a result of MoU signed between the Public Health Foundation of India (PHFI) and the Government of Gujarat. The foundation stone of IIPHG was laid by the then Chief Minister of Gujarat, Shri Narendra Modi. IIPHG is built on the land donated by the government of Gujarat at Gandhinagar.

IIPHG has scaled up its activities substantially over the last few years and now offers multiple on-campus courses and e-programmes as well as short term training programmes. IIPHG also conducts programmes, undertakes policy relevant public health research and advocacy in public health. Over the decade, IIPHG has now become a vibrant hub for public health education, training, research, practice and advocacy in Gujarat as well as other states of India.

My colleagues at IIPHG have been conducting research in critical areas such as infectious and non-communicable diseases, nutrition, maternal and child health, health systems and health policies. I would like to share with you some of our recent experiences, challenges and achievements through this brief annual report. The report reflects the efforts of the IIPHG team's enthusiasm and determination in making a mark on the public health situation in Gujarat and the rest of India. We look forward to working towards a collaborative partnership in strengthening India's public health.

**Dr. Dileep Mavalankar**

Director

Indian Institute of Public Health Gandhinagar

## Public Health Foundation of India: Mission and Vision

Our sponsoring body and Parent organisation, Public Health Foundation of India (PHFI), was established in March 2006, in New Delhi, as a response to address limited institutional capacity in the field of public health in India. PHFI is a public-private initiative and an autonomous institution governed by an independent Governing Board representing diverse constituencies. The Governing Board of PHFI includes senior government officials, eminent Indian and international academic/scientific leaders, civil society representatives and corporate leaders.

**Vision:** To strengthen India's public health institutional and systems capability and provide knowledge to achieve better health outcomes for all.

**Mission:** To develop a public health workforce and set standards, advance public health research and technology, strengthen knowledge application and evidence-informed public health practice and policy.

## The Indian Institute of Public Health Gandhinagar

Public Health Foundation of India (PHFI) is the founding body for the Indian Institute of Public Health Gandhinagar (IIPHG). The foundation stone of IIPHG was laid by the then Chief Minister of Gujarat, Shri Narendra Modi, on the land donated by the government of Gujarat (GoG). On 25 October 2016 it was officially inaugurated by Shri. Vijaybhai Rupani, Hon'ble Chief Minister of Gujarat, in the presence of Shri. Shankarbhai Chaudhary, Hon'ble Minister of State - Health & Family Welfare, Gujarat, and Shri. N.R. Narayan Murthy, Chairman, PHFI. IIPHG is Gujarat's largest public health research and training institution with practice-oriented courses offering academic excellence and focussed research to strengthen health systems. It has a state-of-the-art green campus offering world-class research facilities to students, distinguished faculty, and collaborative projects with various national/international public health organisations.

## Academic Programmes

During the period from April 2022 to March 2023, IIPHG had three main on-campus programmes; One-year Post Graduate Diploma in Public Health Management (PGDPHM), Two-year Masters in Public Health (MPH) and Master of Hospital Administration (MHA).
