Creating Healthcare Leaders for Tomorrow

**AN ENVIRONMENT  
DESIGNED FOR  
ACADEMIC  
EXCELLENCE.**

## ABOUT IIPHG

The Indian Institute of Public Health Gandhinagar (IIPHG) was established in 2008 as a joint initiative of the Public Health Foundation of India (PHFI) and the Government of Gujarat. Recognised as India's first Public Health University under the IIPHG Act, 2015, the Institute is a national leader in healthcare education, training, research, and advocacy.

IIPHG plays a pivotal role in strengthening healthcare systems through policy engagement, capacity building, and evidence-based research at State, National, and Global Levels.

## Purpose-built Institution that nurtures learning, innovation and collaboration

### ACIES: Public Health Dialogue

A distinguished forum for global healthcare dialogue. Connecting academia, policy, and practice on a global platform.

### Sports Week

Fostering balance, resilience, and teamwork. Encouraging holistic well-being alongside academic rigor.

### UN Debate

Developing voices for global leadership. Shaping critical thinkers for international health and governance.

## WHY Choose IIPHG

### Integrated Health Systems Focus

Preparing future hospital leaders to manage and optimize healthcare delivery through an integrated health systems approach, linking premier hospitals, health insurance, digital health technologies, and healthcare management organizations.

### Expert Faculty

Highly Qualified Faculty trained at Premier Global and National Institutions, actively engage in Research, Training, Advocacy and Real-World Implementation in collaboration with National and International Healthcare Industry Partners.

### Excellent Placements

Graduates build impactful careers across premier hospitals, healthcare institutions, and consulting organizations, while also contributing to public health bodies, government agencies, insurers, pharmaceutical and medical device companies, and digital health enterprises, supported by an influential and growing alumni network.

### World-Class Campus

A picturesque 50-acre green campus along the serene banks of the Sabarmati in Gandhinagar, the learning space blends natural serenity with modern infrastructure and advanced technological resources.

Number of Seats

60

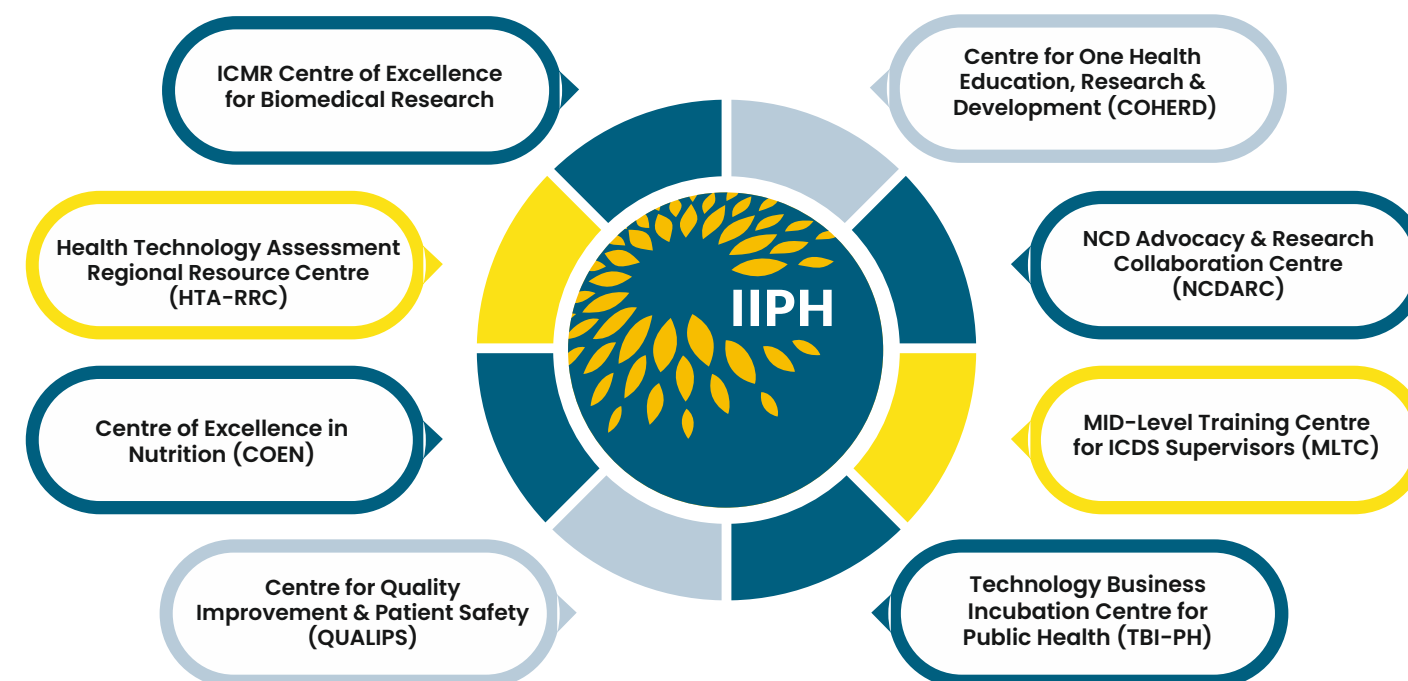

Last Date of Application

31<sup>st</sup> May 2026

# Transforming Academics into Practice through the Centres of Excellence at IIPHG

## Integrating research, practice, and strategic initiatives to advance Healthcare Impact

At the Indian Institute of Public Health Gandhinagar (IIPHG), the programmes are uniquely designed to integrate cutting-edge research, real-world implementation, and strategic institutional initiatives, enabling students to create measurable impact across healthcare systems.

## Field Immersion

Field immersion is a cornerstone of the MHA curriculum at IIPHG, bridging classroom learning with real-world healthcare practice. Through structured field visits, hospital postings, and hands-on exposure, students gain practical insights into hospital operations, health systems management, policy implementation, and service delivery.

This experiential learning equips MHA students with the skills and confidence to work effectively across government health departments, hospitals, NGOs, multilateral agencies, and diverse healthcare organizations, preparing them for leadership roles in the healthcare sector.
